

Catalogue management

Field descriptions to prepare a supplier catalogue in Excel for intraShop Merck

Field: BMECAT

- Description: Version BMEcat
 - Status: required field/constant value
 - Reference value: 1.01
 - Catalogue format: not visible, not searchable
-
- Write here the used BME-Cat-Version.

Field: ARTICLE_MODE

- Description: Article-Mode, Status of article
- Status: required field/constant value
- Reference values: new, delete, update
- Catalogue format: not visible, not searchable

Field: SUPPLIER_ID

- Description: Supplier-no. at Merck
 - Status: required field/Specification Merck
 - Reference values: 6-digits Number
 - Catalogue format: visible table display, searchable
-
- This no. you will receive from the responsible purchaser. You will find it also on our purchasing orders below the address.

Field: SUPPLIER_NAME

- Description: Name of the supplier
- Status: required field/supplier specification
- Catalogue format: visible table display, searchable
- This is your name as you want him to appear in our catalogue. Please ensure that every item has the same supplier name.

Field: SUPPLIER_AID

- Description: Article-no. of the supplier
- Status: required field/supplier specification
- Catalogue format: visible table display, searchable

Field: DESCRIPTION_SHORT

- Description: Material short text description
- Status: required field/supplier specification
- Catalogue format: visible table display, searchable
 - Please fill in all important informations to give the users a short overview
 - (e.g. if you use order unit PAK, how much pieces contains 1 PAK etc.)
 - max. 80 characters

Field: DESCRIPTION_LONG

- Description: Material long text description
 - Status: optional field/supplier specification
 - Catalogue format: visible item detail, searchable
-
- This field contains extensive material description at a max. length of 240 char.
 - For additional space please use the REMARKS-field. Please don't repeat entries from the DESCRIPTION_SHORT.

Field: PRICE_AMOUNT

- Description: Price (net-customer)
- Status: required field/supplier specification
- Catalogue format: visible table display, not searchable

Field: PRICE_CURRENCY

- Description: Used Currency
- Status: required field/constant value
- Reference values: (empty), variant currencies require prior consultation
- Catalogue format: visible table display, not searchable
 - Please fill in only if you don't use EUR. If you leave this field empty EUR will automatically be implemented (Standard). It is not allowed to mix currencies.
 - Please choose 1 currency for all items.

Field: PRICE_QUANTITY

- Description: Price per Quantity
- Status: required field/constant value
- Reference value: 1
- Catalogue format: visible item detail, not searchable
 - Prices per 100 or 1000 are not allowed. Please choose an alternative order unit
 - (e.g. PK) and add the information concerning the content unit in the DESCRIPTION_SHORT.

Field: ORDER_UNIT

- Description: Unit of Quantity
 - Status: required field/constant value
 - Reference values: ISO-order-units (not PCE !!), ST, LE
 - Catalogue format: visible table display, not searchable
-
- All ISO-Order-units are useable except PCE. For PCE we use ST for piece (German: Stück). Additionally useable is LE for service-unit (German: Leistungseinheit). An overview of the maintained order-units at our System you will find under „valid field-content“. An extension of the order-units is possible by arrangement.

Field: ORDER_UNIT

(valid field-content)

ORDER_UNIT	Beschreibung	ORDER_UNIT	Beschreibung
ANN	Jahre (annum)	MBR	Millibar
BG	Beutel/Tüte	MGM	Milligramm
CMK	Quadratzenimeter	MIL	Tausend
CMQ	Kubikzentimeter	MIN	Minute
CMT	Zentimeter	MLT	Milliliter
CR	Kiste	MMK	Quadratmillimeter
